Occult philosophy divulges few of it's most important vital mysteries. It drops them like precious pearls, one by one, far and wide-apart, and only when forced to do so by the evolutionary tidal wave that carries humanity slowly, silently, but steadily towards the dawn of the six-race mankind. (That is, the "6th Aryan race" of mankind) *See: H.P.B.'s Secret Doctrine Book -1- Page 558.*

The religious truths of today are the falsehoods and errors of yesterday. Seeking to acquire ET technology by those not highly trained in the occult arts and sciences opens the door for death and destruction. Science must be in balance with spiritually.

The religious truths of today are the falsehoods and errors of yesterday. Turning religion into a business is pure evil. Hope should not be sold. Salvation has become a product. Separate church and state. End religious welfare. Tax religious schools. Knowledge is salvation not some group of "ancient composite of wise men" called Jesus.

If god is infinite, that is, no beginning and no end, then how can it be a being? Being has a beginning and a end. The word "God" imply a beginning and an end. It is a man made term! A better term is the "absolute unknowable all". Fact the human mind can not grasp the term "infinite". Using the notion of a "being" really help religions with their cash flow.
